Like a dia-mond in the sky,

C F C
Twink-le, twink-le little star,
F C G C
How I won-der what you are.

Soprano Baritone

Break it apart.

Walk it thru.

Do your 4/3/2/1 on part A first.

No Mistakes?

Go work on part B.

Put them together now. How good is that?

you're going Nova.

This progression repeats for each verse.

Transposing Twinkle.. C to G

Above is the chromatic scale of the key of C.

Below.. this is a copy of the same scale above, I circled the root note of your target key or G. Our goal is to transpose from the key of 'C' to 'G'.

Tear off the strip below along the line. This strip represents your new key for Twinkle, Twinkle.

Look at the Twinkle Twinkle Little Star song sheet... what key is it in? What other notes or chords does it have?

Answers: Key of C. F G additional chords.

Align the target key or 'G', of this strip under the 'C' of the above scale.

Without moving the strip from this position, What note or chord aligns on the strip under the 'F' of the upper scale.. and the 'G'?

Answers: Under 'F' is the 'C'. Under 'G' is the 'D'.

These are our new notes or in this case chords.

Original song	=	Transposed to G
C	=	G
F	=	C
G	=	D

Change all the chords on you new music sheet respectively.

Note: If the chord in the original song was an F7.... then the new chord would be a C7.
